NOTE: All the 12 months of the year should be accounted for in the 12 months on full time, or 6 months on full time and 6 months on half time, or 10 months on full time and 2 months on half time. The quantity of material used in the manufacture of products are of other importance. Great care and precision should be exercised in making the returns truthfully reported. The value of Superintendence, 25¢ per bushel of goods in market, and other articles of a manufacturer's establishment are not to be included in Manufatures. Milk and cream sold should be included in the value of the product in the case of milk and cream produced for a local market, unless the manufacturer has a regular price for the goods. In the case of small shops producing goods or doing work for the market only, the value of the product means the price charged at the shop. IN CASES OF WARE FACTORIES.—If the amount is a very small one, mention also the larger amount of stock on hand at the close of the year. Only ascertainable losses and expenses are to be reported. Horse POWER.—This is a measure of great importance. The best information available should be sent in filling these columns.

NOTES RELATIVE TO CHEESE AND BUTTER FACTORIES.

- COLUMNS 1 to 15 have reference to all factories of this class, and should be filled for every establishment enumerated.
- COLUMNS 16 to 21 have reference to manufacturers of cheese only.
- COLUMNS 22 to 27 have reference to manufacturers of butter only.
- COLUMNS 28 to 30 have reference to those factories that manufacture both cheese and butter.
- COLUMNS 31 and 32 have reference to manufacturers of condensed milk.

Notes.—All the 12 months of the year should be accounted for. If business on full time, or 8 months on full time and 4 months on half time, or 10 months on full time and two months less. The figures in respect to the value of material used or product are of prime importance. Careless and judgment should be exercised in making the returns relative thereto. The cost of Superintendence, Rent, Freight of goods to market, and other general expenses of a manufacturing establishment are not to be included in Materials. The figures in respect to the value of Product, in the case of mills and factories producing for a limited market, covers the wholesale price of the goods. In the case of small shops producing for a general market, the value of the product should be the retail price. The value of Product, in the case of mills and factories producing for a limited market, covers the wholesale price of the goods. In the case of small shops producing for a general market, the value of the product should be the retail price. Only reasonable values and quantities are to be reported. Horse-power.—This is an inquiry of great importance. The horse-power available should be used in filling these columns.
